ANNUAL REPORT
OF THE
PUBLIC WORKS DEPARTMENT
FOR THE
YEAR ENDING DECEMBER 31, 1929.

BOSTON, January 2, 1930.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,— In compliance with the Revised Ordinances, the annual report of the operations and expenses of the Public Works Department for the year ending December 31, 1929, is respectfully submitted. The Public Works Department, created by Ordinances 1910, chapter 9, now chapter 27 of the Revised Ordinances of 1925, was formed by consolidating the Engineering, Water and Street Departments.

ORGANIZATION.

The department is composed of six main divisions, viz.:

Central Office.— The Central Office is composed of the accounting force of the entire department under the charge of the secretary and chief clerk.

Bridge and Ferry Division.—This division, under a division engineer, has the charge and care of all bridges used as highways which are in whole, or in part, under the control of the city; the care and management of the ferries owned by the city, including boats, slips, drops and buildings.

NOTE.—The Boston and Cambridge Division, so called, is not, strictly speaking, a division of the Public Works Department, as this work is in charge of a committee of two, one member appointed by the Mayor of Boston and the other by the Mayor of Cambridge, under the provisions of chapter 412 of the Acts of 1904; but because of the fact that the present Commissioner of Public Works is the Boston member of this commission and also because one half of the expense of this commission is defrayed by the Bridge Service, it is in this report treated as a division of this department.

Highway Division.—This division, under a division engineer, has the care of the construction, reconstruction and maintenance of roadways and sidewalks, and the care of lamps and the lighting of streets, parks and alleys.

Sanitary Division.—This division, under a division engineer, has charge of the collection and removal of ashes, garbage and refuse, street cleaning and the oiling and flushing of streets.

Sewer Division.—This division, under a division engineer, has charge of the construction of sewers, catch-basins and waterways.

Water Division.—This division, under a division engineer, has the care of water pipes, installation of meters, water service, laying and relaying of water mains and the high pressure fire service.

GENERAL.

The contract for the new Congress Street Bridge over Fort Point Channel was awarded to Coleman

Brothers, Inc., for \$750,000. The new structure of steel and stone, with a 75-foot draw, replaces the old wooden bridge built sixty years ago. The work is well under way, and will be completed in the fall of 1930.

The Chelsea North Bridge is very old and should have immediate attention. It connects with the main artery to the North Shore, and supports an intense traffic which was not contemplated seventy years ago. A wider and more modern structure is necessary, to provide for the ever increasing traffic to and from the city.

The wooden ferryboats "Noddle Island" and "General Sumner" having been condemned by the Government inspectors, reduces the equipment to five steel boats, which are not sufficient to care for the traffic to and from East Boston. It is very necessary that two new steel boats be provided to give the service demanded. An appropriation is recommended in order that contracts may be awarded without delay, giving the Ferry Service a full complement of steel boats.

The Highway Division department forces resurfaced many streets throughout the city, and in addition, the following streets were reconstructed by contract:

C street, Fargo street to First street, recut granite blocks on concrete base with cement grout joints.

D street, Claflin street to First street, recut granite on concrete base with cement grout joints.

Sumner street, East Boston, New street to Orleans street, recut granite blocks on concrete base with cement grout joints.

Brattle and Pitts streets, city proper, recut granite blocks on concrete base with cement grout joints.

The following streets were rebuilt with asphalt or bitulithic:

Harrison avenue, Bedford to Essex street.

Hemenway street.

Westland avenue.

Morton street, Canterbury street to Norfolk street.

River street, Washington street to Duxbury road.
Cummins Highway.

Washington street, Brighton, Monastery road to Brookline line.

There were sixty-four streets laid out by the Street Commissioners completed during the year.

White way lighting was installed at the North Station, on Nashua and Causeway streets.

Twenty-one twin fixtures were installed in Copley square, 3,000 candle power each, and new lamps and fixtures were installed on Massachusetts avenue, city proper, and on Rutherford avenue in Charlestown.

Street signs and posts have been located throughout the city and suburbs. The city proper and Roxbury are practically completed, and in other sections the main or thoroughfare streets have been marked. To date, there are 5,056 new enameled signs erected, and a continuation of the street sign campaign should follow until the entire city is marked with the enameled signs.

The equipment of the Sanitary Service has been reinforced by the addition of two pick-up motor sweeping machines and two side-loading garbage trucks and also a number of two and three ton trucks.

Repairs have been made at the Fort Hill Wharf and South street, Dorchester, garbage stations.

A very important sewerage project, the Savin Hill marginal conduit, was started,—the first section between Dorchester avenue and the New York, New Haven & Hartford Railroad, and the second section in the Savin Hill Playground. This conduit will intercept the Kimball street and the Dorchester avenue storm water overflows, conducting the sewage and storm water to the bay outside the State boulevard, thereby preventing further pollution of Savin Hill Beach.

The West Roxbury sewer, to provide drainage for the Weld street and Church street areas, is in progress and will be completed during the coming season.

About 20.37 miles of new sewers were built.

The Water Service relocated and extended the pipe tunnel under Fort Point channel in anticipation of the new Congress Street Bridge construction.

Many contracts were made for the laying and relaying of water mains, especially in the new lay-outs by the Board of Street Commissioners.

APPROPRIATIONS.

The money assigned for the maintenance work of the Public Works Department during the year 1929 was derived from the income of the city raised by taxation. In December, 1928, the department estimates were submitted to the Mayor, in segregated form, who made such allowance for each item in the budget as he considered necessary and submitted them to the City Council. The total maintenance appropriations, as passed by the City Council and approved by the Mayor, are shown below. On another page will be found the total expenditures by each service for each item in the segregated budget.

Central Office	\$90,856 73
Bridge Service	472,630 19
Ferry Service	564,238 20
Lighting Service	1,014,428 00
Paving Service	1,938,343 28
Sanitary Service	3,199,828 79
Sewer Service	722,185 08
Water Service	1,690,711 23
Total								<u>\$9,693,221 50</u>

Yours respectfully,

JAMES H. SULLIVAN,
Commissioner of Public Works.

‡ Of this amount 0.04 mile is cobble and 63.33 mile is granite block paving on concrete base.

§ Of this amount 0.06 mile is Blome Granitoid concrete blocked pavement.

|| Of this amount 153.32 miles is Bituminous macadam.

6.28 miles public alleys included in this table.

7.24 miles public streets in charge of Park Department included in this table.

2.59 miles public streets in charge of Commonwealth of Massachusetts included in this table.

In addition to this table there are 1.43 miles of accepted footways.

The following changes were made in pavement during the year 1929:

0.03 mile or 822 square yards sheet asphalt changed to bitulithic.
 0.01 mile or 543 square yards sheet asphalt changed to granite block.
 0.09 mile or 1,067 square yards sheet asphalt changed to macadam.
 0.40 mile or 9,647 square yards asphalt concrete changed to sheet asphalt.
 0.00 mile or 50 square yards asphalt concrete changed to bitulithic.
 0.26 mile or 7,721 square yards bitulithic changed to sheet asphalt.
 0.00 mile or 300 square yards Topeka changed to sheet asphalt.
 0.00 mile or 26 square yards Topeka changed to bitulithic.
 0.36 mile or 19,809 square yards granite block changed to sheet asphalt.
 0.12 mile or 3,629 square yards granite block changed to bitulithic.
 0.00 mile or 8 square yards granite block changed to concrete.
 0.00 mile or 11 square yards granite block changed to macadam.
 0.72 mile or 14,830 square yards wood block changed to sheet asphalt.
 0.42 mile or 10,917 square yards wood block changed to bitulithic.
 0.00 mile or 453 square yards wood block changed to granite block.
 0.00 mile or 72 square yards concrete changed to bitulithic.
 3.20 miles or 81,548 square yards macadam changed to sheet asphalt.
 0.12 mile or 2,365 square yards macadam changed to asphalt concrete.
 2.38 miles or 39,584 square yards macadam changed to bitulithic.
 0.01 mile or 1,526 square yards macadam changed to granite block.
 0.50 mile or 6,115 square yards macadam changed to concrete.
 2.24 miles or 35,586 square yards gravel changed to sheet asphalt.
 0.42 mile or 6,746 square yards gravel changed to asphalt concrete.
 1.19 miles or 21,434 square yards gravel changed to bitulithic.
 0.25 mile or 5,209 square yards gravel changed to granite block.
 1.73 miles or 28,810 square yards gravel changed to macadam.
 0.23 mile or 14,529 square yards not graded changed to sheet asphalt.
 0.00 mile or 2,910 square yards not graded changed to bitulithic.

EMPLOYEES.

The following tables show the number of requisitions made on the Civil Service Commission for men; the number appointed, reinstated, died, resigned, transferred and retired; also the grade and number of employees in the department:

Requisitions made on the Civil Service Commission .	51
Number of men called	211
Number of men certified	366
Number of men appointed	248
Promotions allowed	60
Reinstatements allowed	* 81
Number of men resigned	26
Number of men died	54

*Eighty on eligible list, January 1, 1929.

Number retired under Retirement Acts	84
Number of transfers to other departments	8
Number of transfers from other departments	39
Number of men discharged	15

The records of the department show that there are now 3,131 persons eligible for employment in the several divisions and of that number 3,080 were upon the January, 1930, pay rolls.

APPENDIX B.

REPORT OF THE DIVISION ENGINEER OF
THE BRIDGE AND FERRY DIVISION.

BOSTON, January 1, 1930.

MR. JAMES H. SULLIVAN,
Commissioner of Public Works.

DEAR SIR,—I respectfully submit the following report of the income, expenditures and operation of the Bridge and Ferry Division for the year ending December 31, 1929. The expenditures of the division in the regular maintenance appropriations of the department were \$1,025,049.06. Under a number of special appropriations \$296,613.53 was expended, making the total expenditure for the year \$1,321,662.59. This does not include certain expenditures for construction work for other departments, which work was supervised by the engineers of this division.

The more important works undertaken during the past year in the Bridge Service were the reconstruction of Congress Street Bridge, over Fort Point channel, which was started but will not be finished until the end of 1930; the beginning of the reconstruction of River Street Bridge, which involves considerable work on the approaches to the bridge; the alteration of the draw span of Prison Point Bridge, which was made into a fixed span, with a much more permanent pavement, and some strengthening, all of which eliminated a great deal of vibration and will cut down maintenance expenses.

An appropriation should be made as soon as possible for the reconstruction of Morton Street Bridge, over the New York, New Haven & Hartford Railroad, as the street on either side of the bridge is much wider than the bridge, making a bottle-neck at the bridge which is dangerous to traffic. The Railroad Company is willing to contribute toward the cost of the structure.

Albany Street Bridge, over the passenger tracks of the Boston & Albany Railroad, and Shawmut Avenue Bridge, over the tracks of the New York, New Haven & Hartford Railroad and Boston & Albany Railroad, are both deteriorating from rapid corrosion and should be rebuilt.

The pile approaches to the draw span of Chelsea North Bridge, which are badly deteriorated and gradually getting to be in a dangerous condition, should be rebuilt at once, preferably with a steel superstructure on masonry piers. As this will involve an expenditure of probably over \$1,000,000, it would be advisable to obtain a legislative act allowing the city to borrow some of the money outside of the debt limit.

In the Ferry Service at least one new boat should be provided to take the place of the old wooden vessels. The ferryboat "Noddle Island," an old wooden boat, is in such condition that it will have to be put out of commission and should be immediately sold.

Beacon Street Bridge.

November 6, 1929, a contract was approved with Maurice M. Devine for guniting and painting Beacon Street Bridge. All loose concrete was removed and replaced with gunite. All exposed metal work was cleaned and pointed. The work was completed December 21, 1929, at a contract cost of \$1,613.45.

Broadway Bridge.

May 22, 1929, a contract was approved with the New England Construction and Maintenance Company for repairing the fence railings on this bridge. All rusted and broken parts were replaced and the railings painted. The work was completed July 20, 1929, at a contract cost of \$1,176.25.

May 28, 1929, a contract was approved with Maurice M. Devine for cleaning and painting the bridge from the northerly abutment at Lehigh street to the southerly abutment at Foundry street, except spans 11 and 12, which were recently rebuilt, and the draw span. The metal work was patch coated with red lead, and after this was done two finish coats were applied. Some of the finish coat work was done by spraying. The contract cost was \$4,800.

Cambridge Street Bridge.

May 23, 1929, a contract was approved with Steves Lacios Company for cleaning and painting all the exposed metal work of this bridge. The work was completed June 14, 1929, at a contract cost of \$960.

Charlestown Bridge.

On June 8, 1929, a contract was approved with Walsh & Co. for pointing the masonry of Charlestown Bridge at the storehouses under the Charlestown approach. This work was completed August 20, 1929, at a contract cost of \$1,331.30.

On December 13, 1929, a contract was approved with Smith and Lovett Company, for building two roadway gates at the Charlestown end of the draw span, one in the middle roadway and one in the up-stream roadway. The work is now in progress and will be completed at an early date.

Chelsea Bridge North.

July 17, 1929, a contract was approved with W. H. Ellis & Sons Company for repairing the pile foundation on two bents on each side of the draw span. New piles were driven and posted up and new braces were fitted. The work was completed September 25, 1929, at a contract cost of \$10,444.40.

November 21, 1929, a contract was approved with Walsh & Co. for regulating the granite block paving on the pile spans of the bridge. The work was completed December 23, 1929, at a contract cost of \$1,161.

Chelsea Street Bridge.

July 29, 1929, a contract was approved with W. H. Ellis & Son Company, for repairing the fender pier. All broken and loose waling was replaced, new piles driven where needed and new planking placed on all the deck of the pier. The contract cost was \$6,584.70.

Congress Street Bridge.

September 13, 1929, a contract was approved with Coleman Brothers, Inc., for the rebuilding of this bridge. The entire old structure has been removed and a new channel dredged and the masonry 90 per cent completed. Work is progressing satisfactorily towards com-

pletion of the structure. The bridge will be of steel on masonry piers, with a bascule draw span.

Granite Avenue Bridge.

June 3, 1929, a contract was approved between the Granite Avenue Bridge Commission and the Rendle Corporation for rebuilding the floor of the entire bridge. Sheathing, under planking and stringers were renewed. Four lines of traffic treads were also placed on the bridge.

The work was completed under the supervision of this division, August 22, 1929, at a contract cost of \$7,046.50, of which the City of Boston paid one-half and the town of Milton one-half.

Northern Avenue Bridge.

August 19, 1929, a contract was approved with Gustavo Preston Company for furnishing and installing a motor driven air compressor with unloaders, oiling devices and other necessary accessories. A motor for driving the same, automatic starting device switch board gauges, pressure regulator wiring, etc., were also installed. The contract cost was \$6,726. Work was completed November 30, 1929.

River Street Bridge.

A contract was approved August 7, 1929, with John McCourt Company for rebuilding and widening this bridge. Masonry abutments have been built, the structural steel put in place and the filling of the approaches completed. The work was suspended during the winter months and will be completed early in 1930.

The headroom over the tracks is to be raised to 18 feet and provision is being made for four railroad tracks instead of two as at present.

MISCELLANEOUS REPAIRS TO CITY STRUCTURES.

South Street Garage Dump Station.

A contract was approved with Walsh & Co. for repairing this station; unsound piling, posts, braces and flooring was renewed. The runway to the building was sheathed with 2-inch spruce. The work was completed July 3, 1929, at a contract cost of \$6,580.30 for the Sanitary Division. It was supervised by the Bridge Division.

Fort Hill Garbage Dump Station.

A contract was approved September 12, 1929, for repairing this station. General repairs were made on the piling entrance ramp and floor of the dumping platform. The work was completed October 8, 1929, for the Sanitary Division at a contract cost of \$6,138.25. It was supervised by the Bridge and Ferry Division.

Long Island, Northwest Wharf.

A contract was approved June 8, 1929, for repairing this wharf to the Rendle Corporation. An entire new under deck was laid, new 2-inch sheathing placed and all unsound stringers and piling replaced. The work was completed July 19, 1929, for the Institutions Department at a contract cost of \$19,075.45. The work was under the supervision of this division.

Rainsford Island Wharf.

A contract was approved June 19, 1929, with the Rendle Corporation for repairing this wharf. New spring piles were driven; the drop repaired with new lumber and minor replanking done. A double gate was placed at the end of the wharf. This wharf is still in a very poor condition and if it is to be used next year, extensive repairs will be necessary. This year's work was completed July 8, 1929, at a contract cost of \$2,871.20, for the Institutions Department under the supervision of this division.

LIST OF BOSTON HIGHWAY BRIDGES.

(In the list those marked with an asterisk (*) are over navigable waters, and are each provided with a draw.)

1. BRIDGES WHOLLY MAINTAINED BY BOSTON.

In Charge of Bridge and Ferry Division.

Allston, over Boston & Albany Railroad at Cambridge street, Brighton.

Arlington street, over Boston & Albany Railroad.

B street (footbridge), over Neponset River, Hyde Park.

Baker street, at Brook Farm, West Roxbury.

Beacon street, over outlet to Back Bay Fens.

Beacon street, over Boston & Albany Railroad.

Bennington street, over Boston, Revere Beach & Lynn Railroad.

Berkeley street, over Boston & Albany Railroad.

Blakemore street, over New York, New Haven & Hartford Railroad, Providence Division.

Boylston street, over Boston & Albany Railroad.

Braddock Park (footbridge), over New York, New Haven & Hartford Railroad, Providence Division.

Broadway, over Boston & Albany Railroad.

* Broadway, over Fort Point channel.

Brookline avenue, over Boston & Albany Railroad.

Brooks street, Brighton.

Byron street, over Boston, Revere Beach & Lynn Railroad.

Charlesgate, in Fens, over Ipswich street.

* Charlestown, from Boston to Charlestown.

* Chelsea South, over south channel, Mystic river.

* Chelsea street, from East Boston to Chelsea.

Clarendon street, over the Boston & Albany Railroad and the New York, New Haven & Hartford Railroad.

Columbus avenue, over Boston & Albany Railroad.

Commercial Point, or Tenean, Dorchester.

* Congress street, over Fort Point channel.

Cummins Highway, over New York, New Haven & Hartford Railroad, West Roxbury.

Dana avenue, over Neponset river, Hyde Park.

Dartmouth street, over Boston & Albany Railroad.

* Dorchester avenue (formerly Federal street), over Fort Point channel.

* Dover street, over Fort Point channel.

Fairmount avenue, over Neponset river, Hyde Park.

Florence street, over Stony brook, West Roxbury.

Gainsborough street (footbridge), over New York, New Haven & Hartford Railroad, Providence Division.

Glenwood avenue East (footbridge), over Neponset river, Hyde Park.

Glenwood avenue West, over Mother brook, Hyde Park.

Gove street (footbridge), over Boston & Albany Railroad, East Boston.

Huntington avenue, over Boston & Albany Railroad.

Huntington avenue, over Stony brook, Hyde Park.

Hyde Park avenue, over Mother brook, Hyde Park.

Hyde Park avenue, over Stony brook, West Roxbury.

Hyde Park avenue, over Stony brook (near Clarendon Hills Station), Hyde Park.

Ipswich street, in Fens, over waterway.

Irvington street (footbridge), over New York, New Haven & Hartford Railroad, Providence Division.

Jones avenue (footbridge), over New York, New Haven & Hartford Railroad, Midland Division.

* Malden, from Charlestown to Everett.

Massachusetts avenue, over Boston & Albany Railroad.

Massachusetts avenue, over New York, New Haven & Hartford Railroad, Providence Division.

Metropolitan avenue (near Clarendon Hills Station), Hyde Park.

Neptune road, over Boston, Revere Beach & Lynn Railroad.

* Northern avenue, over Fort Point channel.

Rivermoor street, West Roxbury.

Shawmut avenue, over Boston & Albany Railroad and New York, New Haven & Hartford Railroad, Providence Division.

Southampton street, over South bay sluice.

Summer street, over A street.

Summer street, over B street.

Summer street, over C street.

* Summer street, over Fort Point channel.

* Summer street, over Reserved channel, South Boston.

Tollgate way (footbridge), over Providence Division, from Washington street to Hyde Park avenue, Forest Hills.

Walworth street, over the New York, New Haven & Hartford Railroad, Providence Division.

* Warren, from Boston to Charlestown.

Webster street (footbridge), East Boston, over Boston & Albany Railroad.

West Newton street, over New York, New Haven & Hartford Railroad, Providence Division.

West River street, over Mother brook, Hyde Park.

West Rutland square (footbridge), over New York, New Haven & Hartford Railroad, Providence Division.

Wordsworth street (footbridge), over Boston, Revere Beach & Lynn Railroad, East Boston.

In Charge of Bridge and Ferry Division and Park and Recreation Department.

Columbia road, over New York, New Haven & Hartford Railroad, Old Colony Division.

Columbia road, over Shoreham street.

In Charge of Park and Recreation Department.

Agassiz road, in Fens.

Audubon road, in Riverway, over Boston & Albany Railroad.

Berners street (footbridge), over Bridle Path in Riverway.

Boylston street, in Fens, over waterway.

Bridle Path, in Riverway, over Muddy river.

Charlesgate, in Fens, over Boston & Albany Railroad.

Circuit drive, over Scarboro pond, in Franklin Park.

Commonwealth avenue, in Fens, over waterway.

Cottage Farm, over Boston & Albany Railroad, at Commonwealth avenue.

Ellicott Arch, in Franklin Park.

Fens in Fens.

Forest Hills entrance, in Franklin Park.

Leverett pond (footbridge), in Olmsted Park.

Norfolk Street Playground (footbridge), over Midland Division, New York, New Haven & Hartford Railroad.

Public Garden (footbridge).

Scarboro pond (footbridge), in Franklin Park.

Wood Island (footbridge), over Boston, Revere Beach & Lynn Railroad, to World War Memorial Park.

In Charge of Transit Department.

Dorchester avenue, over Subway and freight track.

Columbia road, over Subway.

Savin Hill, over Subway.

Park street, over Subway.

Melville avenue, over Subway.

Mather street, over Subway.

Centre street, over Subway.

Welles avenue, over Subway.

Peabody square, over Subway (will take place of Ashmont street and Dorchester avenue).

Adams street, over Subway.

Cedar Grove, over Subway.

Medway street, over Subway.

II. BRIDGES OF WHICH BOSTON MAINTAINS THE PART WITHIN ITS LIMIT.

Central avenue, from Dorchester to Milton.

Milton, from Dorchester to Milton.

Paul's, over Neponset river, Hyde Park.

Spring street, from West Roxbury to Dedham.
 Western avenue, from Brighton to Watertown.
 Winthrop, from Breed's Island to Winthrop.

In Charge of Park and Recreation Department.

Bellevue street, in the Riverway, over Muddy river.
 Berners street (footbridge), over Muddy river.
 Brookline avenue, in the Riverway, over Muddy river.
 Huntington avenue, in the Riverway, over Muddy river.
 Longwood avenue, in the Riverway, over Muddy river.

III.—BRIDGES OF WHICH BOSTON PAYS A PART OF
 THE COST OF MAINTENANCE.

In Charge of Bridge and Ferry Division.

Albany street, over Boston & Albany Railroad (over freight tracks).

Belgrade avenue, over New York, New Haven & Hartford Railroad, Providence Division.

Broadway, formerly Pleasant street, over the Subway.

* Chelsea North, over the north channel of the Mystic river.

Harvard street, over New York, New Haven & Hartford Railroad, Midland Division.

* Meridian street, from East Boston to Chelsea.

Morton street, over New York, New Haven & Hartford Railroad, Midland Division.

Norfolk street, over New York, New Haven & Hartford Railroad, Midland Division, near Dorchester Station.

River street, over New York, New Haven & Hartford Railroad, Midland Division, at River Street Station, Hyde Park.

*In Charge of Commissioners for Boston and Cambridge
 Bridges.*

Anderson, from Brighton to Cambridge.

Longfellow, from Boston to Cambridge.

Cambridge street, from Brighton to Cambridge.

Cottage Farm, from Boston to Cambridge.

Prison Point, from Charlestown to Cambridge.

Western avenue, from Brighton to Cambridge.

In Charge of Commissioners for Granite Avenue Bridge.
Granite avenue, from Dorchester to Milton.

IV.—BRIDGES OF WHICH BOSTON MAINTAINS THE
WHOLE OR A PART OF THE WEARING SURFACE.

In Charge of Bridge and Ferry Division.

Austin street, over Boston & Maine Railroad, Charlestown.

Babson street, over New York, New Haven & Hartford Railroad.

Bennington street, over Boston & Albany Railroad.

Blue Hill avenue, over New York, New Haven & Hartford Railroad, Midland Division.

Boston street, over New York, New Haven & Hartford Railroad, Old Colony Division.

Cambridge street, Charlestown, over Boston & Maine Railroad.

Chelsea, over Boston & Maine Railroad.

Cummins Highway, over New York, New Haven & Hartford Railroad, Mattapan.

Curtis street, East Boston, over Boston & Albany Railroad.

Dana avenue, over New York, New Haven & Hartford Railroad, Midland Division, Hyde Park.

Dorchester avenue, over New York, New Haven & Hartford Railroad, Old Colony Division.

Everett street, over Boston & Albany Railroad, Brighton.

Fairmount avenue, over New York, New Haven & Hartford Railroad, Midland Division, and Station street, Hyde Park.

Glenwood Avenue West, over passageway connecting land of the New York, New Haven & Hartford Railroad, Hyde Park.

Harrison avenue, over Boston & Albany Railroad.

Hyde Park avenue, over proposed electric connection between Midland and Providence Division, New York, New Haven & Hartford Railroad, Hyde Park.

Maverick street, East Boston, over Boston & Albany Railroad.

Milton street, Hyde Park, over New York, New Haven & Hartford Railroad.

Mystic avenue, over Boston & Maine and Boston & Albany Railroads.

New Allen street, Hyde Park, over New York, New Haven & Hartford Railroad.

Perkins street (footbridge), over Boston & Maine Railroad.

Porter street, over Boston & Albany Railroad.

Prescott street, over Boston & Albany Railroad.

Redfield street, at Neponset, over New York, New Haven & Hartford Railroad, Old Colony Division.

Reservoir road, Brighton, over Boston & Albany Railroad, Newton Branch.

Saratoga street, over Boston & Albany Railroad.

Saratoga street, over Boston, Revere Beach & Lynn Railroad, East Boston.

Southampton street, over New York, New Haven & Hartford Railroad, Old Colony Division.

Sprague street, over New York, New Haven & Hartford Railroad, Midland Division, and branch of Providence Division, Hyde Park.

Summer street, over New York, New Haven & Hartford Railroad, Midland Division.

Sumner street, East Boston, over Boston & Albany Railroad.

West Fourth street, over New York, New Haven & Hartford Railroad, Old Colony Division.

V. BRIDGES MAINTAINED BY METROPOLITAN DISTRICT COMMISSION.

Charles River Dam.

* Dorchester Bay Bridge, from Commercial Point to Savin Hill.

Old Colony Parkway, near Savin Hill, at Patten's Cove.

Old Colony Parkway, over Tenen Creek.

Harvard, from Boston to Cambridge.

Mattapan, over Neponset river.

Neponset, from Dorchester to Quincy.

Parkway, over New York, New Haven & Hartford Railroad, West Roxbury.

North Beacon street, from Brighton to Watertown.

John W. Weeks Bridge, from Brighton to Cambridge.

VI. BRIDGES WHOLLY MAINTAINED BY RAILROAD CORPORATIONS.

First. Boston & Albany.—Albany street, over passenger tracks; Market street, Brighton; Tremont street; Washington street.

Second. Boston & Maine and Boston & Albany Railroads.—Main street.

Third. Boston & Maine Railroad, Eastern Division.—Boardman street, East Boston.

Fourth. Boston, Revere Beach & Lynn Railroad.—Everett street.

Fifth. New, York, New Haven & Hartford Railroad, Midland Division.—Athens street; Bolton street; Dorchester avenue; Silver street; Gold street; Washington street, Dorchester; West Broadway; West Fifth street; West Fourth street; West Second street; West Sixth street; West Third street.

Sixth. New York, New Haven & Hartford Railroad, Old Colony Division.—Savin Hill avenue.

Seventh. New York, New Haven & Hartford Railroad, Providence Division.—Albany street; Arlington square; Baker street, West Roxbury; Bellevue street, West Roxbury; Berkeley street; Broadway, South Boston; Canterbury street, West Roxbury; Centre and Mt. Vernon streets, West Roxbury; Columbus avenue; Dartmouth street; Gardner street, West Roxbury; Harrison avenue; Park street, West Roxbury; Washington street; West street, Hyde Park; West River street, Hyde Park.

RECAPITULATION OF BRIDGES.

I. Number wholly maintained by Boston:			
In charge of Bridge and Ferry Division .	65		
In charge of Bridge and Ferry Division and Park and Recreation Department,	2

FERRY SERVICE.

The following ferryboats are in commission:

Name.	When Built.	Length.	Gross Tons.
John H. Sullivan	1912	172 ft. 3 in.	527
Lieutenant Flaherty	1921	174 " 0 "	727
Ralph J. Palumbo	1921	174 " 0 "	755
Charles C. Donoghue	1926	174 " 4 "	756.77
Daniel A. MacCormack	1926	174 " 4 "	756.77

All these boats are of the propeller type and are all steel boats.

The "Noddle Island," a wooden propeller boat, was in such condition that repairs ordered by the United States Steamboat Inspection Service in April, 1928, were so expensive that it was deemed inadvisable to make them. The boat was sold at auction on February 18, 1929, for \$760.

The "General Sumner," a wooden propeller boat, is in extremely bad condition and repairs ordered by the Steamboat Inspection Service are such that it is useless to repair the boat. It should be sold at auction immediately in order to get rid of maintenance costs.

At least one new steel boat and preferably two new steel boats should be provided to help out the deficiency in service caused by the lack of the two wooden boats.

"LIEUTENANT FLAHERTY."

On February 27, 1929, a contract with the Bethlehem Shipbuilding Corporation, Limited, was approved by the Mayor, to make certain repairs to the hull incidental to the annual inspection of the boat by the United States Steamboat Inspection Service and such other repairs and renewals as were necessary to put the boat in proper condition. The miscellaneous repairs consisted of re-boring the cylinders of the main engines, fitting new bull-rings, snap-rings and followers, overhauling main thrust bearings, circulating pump and ship's fire and bilge pump. The work was completed on March 19, 1929, at a contract cost of \$6,429.40.

"JOHN H. SULLIVAN."

On April 9, 1929, a contract with the Richard T. Green Company was approved by the Mayor, to make certain repairs to the hull incidental to the annual inspection of the boat by the United States Steamboat Inspection Service and such other repairs and renewals necessary to put the boat in proper condition. The miscellaneous repairs consisted of reboring the cylinders of the main engines, renewing one section of one crank shaft, repairing main thrust bearings, repairing and rebabbiting certain main bearing brasses, overhauling, cleaning and testing condenser and installing ventilating system in boiler room. The work was completed on June 27, 1929, at a contract cost of \$9,657.15.

"RALPH J. PALUMBO."

On July 8, 1929, a contract with the Richard T. Green Company was approved by the Mayor, to make certain repairs to the hull incidental to the annual inspection of the boat by the United States Steamboat Inspection Service and such other repairs and renewals necessary to put the boat in proper condition.

The miscellaneous repairs consisted in reboring the cylinders of the main engines, fitting new bull-rings, snap-rings and followers, overhauling link motion and valves and minor renewals to small piping. The work was completed on August 16, 1929, at a contract cost of \$8,020.60.

"CHARLES C. DONOGHUE."

On October 7, 1929, a contract with the Richard T. Green Company was approved by the Mayor, to make certain repairs to the hull incidental to the annual inspection of the boat by the United States Steamboat Inspection Service and such other repairs and renewals necessary to put the boat in proper condition. The miscellaneous repairs consisted of minor repairs to the main engines and piping and the installation of boiler circulators. The work was completed on October 26, 1929, at a contract cost of \$6,905.10.

"DANIEL A. MACCORMACK."

On December 12, 1929, a contract with the Bethlehem Shipbuilding Corporation, Limited, was approved by the Mayor, to make certain repairs to the hull incidental to

the annual inspection of the boat by the United States Steamboat Inspection Service and such other repairs and renewals necessary to put the boat in proper condition. Work under this contract was not completed during 1929.

MISCELLANEOUS.

Piers.— On June 4, 1929, a contract with the W. H. Ellis & Son Company was approved by the Mayor, to make general repairs to all ferry piers or racks. This work consisted of removing unsound and crippled piles and wales and driving and securing in place new piles, girders and pier heads as required; the head of the middle pier, North Ferry, East Boston, and the head of the middle pier, South Ferry, Boston, were rebuilt. The work was completed on August 21, 1929, at a contract cost of \$12,417.30.

Department Force.— During the year the mechanics, machinists, painters, riggers and carpenters made such repairs to the plant as was possible with the equipment at their disposal. This work consisted of minor emergency repairs to the main engines, auxiliaries and piping of the boats, repairs to wood work and glazing around the plant generally and such routine work incidental to general operations.

Yours respectfully,

JOHN E. CARTY,
Division Engineer.

BRIDGE SERVICE.

APPENDIX C.

REPORT OF THE DIVISION ENGINEER OF THE
HIGHWAY DIVISION.

BOSTON, January 2, 1930.

MR. JAMES H. SULLIVAN,
Commissioner of Public Works.

DEAR SIR,— I submit herewith a statement of the activities, operations and expenditures of the Paving and Lighting Services for the year ending December 31, 1929.

The maintenance expenditures of the Highway Division for the year were as follows:

Lighting Service	\$1,010,513 01
Paving Service	1,930,382 64
	<u>\$2,940,895 65</u>

PAVING SERVICE.

The division forces were employed in the maintenance of the streets throughout the city, resurfacing and repairing the macadam roadways, relaying the paving in the granite paved streets, and patching old sheet asphalt surfaces.

Sixty-six streets were resurfaced; the work done was nearly all of the type known as asphalt macadam.

During the year contracts were awarded to construct seventy-six new streets laid out under the "Highways, Making of," appropriation; the work on fourteen was not started.

Contracts were awarded to construct artificial stone sidewalks in thirty-six streets, nearly all of the work was completed at the end of the year.

For the repair and reconstruction of streets a contract was awarded for repairing bituminous pavement upon which the maintenance guaranty has expired. Contracts were awarded to reconstruct twenty-seven

streets and all but one was completed. In addition contracts were awarded for new street surfaces for the Exchange street and Causeway street widenings and the Nashua street widening and extension to Leverett street.

During the year the work of erecting street signs on the arterial thoroughfare streets, commenced in 1928, has been continued so that street signs are now installed to the Boston line in most cases.

Considerable progress has been made installing signs on cross-town streets connecting the main thoroughfares.

Signs have been installed on all streets constructed or reconstructed during the year.

LIGHTING SERVICE.

In and about Copley square twenty-one new twin 1,500 candle power mazda lamps were installed, making each unit 3,000 candle power.

The new construction in Nashua street, Cummins Highway and River street, Dorchester, required a new system of lighting which has been made by installing new 1,500 candle power mazda lamps on concrete posts in the suburban part of the city and the boulevard post in the city proper.

In addition to new lamps on Causeway street and Main street, Charlestown, a short type of boulevard post was installed so as to throw light under the elevated structure.

Respectfully,

JOSHUA ATWOOD,
Division Engineer.

HIGHWAY DIVISION — LIGHTING SERVICE.

FINANCIAL STATEMENT.

Expenditures January 1, 1929, to December 31, 1929.

The following is a statement of the work done during the year under the supervision of the Division Engineer.

In Copley square, city proper, twenty-one 3,000 candle power twin fixture mazda lamps have been installed.

Large street lamps, namely, arc, 1,500 candle power series mazda and 1,475 candle power multiple mazda have been installed on Nashua street, Middlesex street, State street, Exchange place, Buckingham street, Charles street, Causeway street, Boylston street, Appleton street, Atlantic avenue, Hanover street and Harrison avenue, city proper; East Cottage street, Savin Hill avenue, Topliff street, Dudley street, Columbia road, Freeport street, Dorchester avenue, Greenbrier street, Washington street, Ashtown street, Morton street, Talbot avenue and Blue Hill avenue, Dorchester; Commonwealth avenue, Brighton; Lewis street, Paris street, Glendon street, Border street and Pope street, East Boston; Central avenue and Metropolitan avenue,

Hyde Park; Greenville street and Greenleaf street, Roxbury; Foundry street, Dorchester avenue, M street, Dorchester street, C street and Thomas park, South Boston; Centre street, Forest Hills square, Washington street and Cummins Highway, West Roxbury; Chapman street, George street, Main street, Bunker Hill street and Rutherford avenue, Charlestown.

The above lamps except those located in overhead districts are of the boulevard type.

Street lamps of the 600 candle power mazda type have been installed on Griggs street, Linden street, Ashford street, Leamington road, Gardner street, Foster street, Parsons street and Franklin street, Brighton; Allston street, city proper; Leonard street, Bowdoin avenue, Sydney street, Greenwood street, Walk Hill street, Vaughan avenue and Magnolia street, Dorchester; Gladstone street, East Boston; Central avenue and Station street, Hyde Park; Hawthorne street, Marcella street, Ellis street and Lawn street, Roxbury; Sedgwick street, Cottage avenue and La Grange street, West Roxbury.

During the year 165 pendant type posts were changed to the boulevard type.

Petitions and requests for new lamps received from citizens and from officials, also complaints in relation to the Lighting Service, have been investigated and attended to. All streets in the underground district prescribed for the year have been inspected and the necessary changes and additions have been made.

The number of miles of streets and ways lighted by this service is as follows:

Public streets and alleys	639.75
Public footways	1.43
Park roads, footways, private streets and alleys, approximately	306.19
	<hr/>
	947.37
	<hr/>

During the year the following defects were reported by the police: Arc lamps, 5,528; mazda lamps, 1,158, and gas lamps, 1,320.

There are in operation 22,302 arc, mazda and gas lamps, divided as follows: 4,672 arc, 7,597 mazda, 9,828 single mantle gas lamps and 205 single mantle fire alarm gas lamps.

LAMPS INSTALLED.

GAS LIGHTING.

There are 9,828 single mantle gas lamps and 205 single mantle fire alarm gas lamps.

The city furnishes the lamp posts, the Gas Company sets the lamp posts and provides service pipes laid from the gas mains to the top of the posts, maintains all such pipes and posts in good condition and repair, furnishes gas, lanterns, burners and all other necessary equipment including labor for lighting and care.

The Lighting Service provides for the gas, lighting and care of fire alarm signal lamps and the Fire Department for the posts, setting and repairing of same.

Gas Lamps.

LIGHTING CONTRACT.	Gas District.	Number of Lamps.	Type of Lamp.	Rated Candle Power.	Gas Consumed per Hour.	Hours of Burning per Annum.	Cost of Gas per Lamp per Annum.	Cost per Lamp for Lighting and Care per Annum.	Total Cost per Lamp per Annum.
Boston Consolidated Gas Company.*	South Boston, East Boston, Dorchester, Roxbury, Brighton, West Roxbury.	9,326 181	Single mantle. Single mantle. F. A.	60 60	3 feet. 3 feet.	3,886.45 3,886.45	\$10 54 10 54	\$15 20 15 20	\$25 74 25 74
Charlestown Gas and Electric Company.†	Charlestown.....	502 24	Single mantle. Single mantle. F. A.	60 60	3 feet. 3 feet.	3,886.45 3,886.45	10 69 10 69	15 20 15 20	25 89 25 89

Ten year contract approved May 20, 1924.

* The Boston Consolidated Gas Company reduced the price of gas 16½ per cent, dating from October 1, 1924.

† The Charlestown Gas and Electric Company reduced the price of gas 16½ per cent, dating from November 1, 1920.

This explains the reduction in cost from the original contract price of \$11 per lamp per year.

There are 4,672 magnetite arc lamps, 384 40 candle power, 231 40 candle power, multiple, two bulb fire alarm lamps, 1,543 66 candle power, 3,143 80 candle power, 49 100 candle power, 81 132 candle power, 36 250 candle power, 12 528 candle power, 73 600 candle power, 23 950 candle power, 15 1,000 candle power, 156 1,475 candle power, 1,830 1,500 candle power, and 21 3,000 candle power twin fixture mazda lamps.

The electric companies provide and set the lamp posts, except the lamp posts for mazda lamps smaller than 528 candle power, multiple or 600 candle power series circuits supplied from underground circuits, furnish lamps, overhead wires, underground conduits, cables and connections and all other necessary equipment and maintain same in good condition and repair.

The lighting rates for electric lamps are in accordance with the following table:

DESCRIPTION OF LAMPS.	Fixed Costs per Lamp per Year.	Running Cost per Lamp Hour.
1,500 candle power Magnetite arc, series	\$36 00	1.50 cents
40 candle power Mazda lamp, series *.	10 00	.22 cent
40 candle power Mazda lamp, multiple †.	10 80	.26 cent
66 candle power Mazda lamp, multiple.	10 80	.26 cent
80 candle power Mazda lamp, series.	10 80	.26 cent
100 candle power Mazda lamp, series.	12 00	.30 cent
132 candle power Mazda lamp, multiple.	13 50	.36 cent
250 candle power Mazda lamp, series.	18 00	.60 cent
528 candle power Mazda lamp, multiple.	31 00	1.00 cent
600 candle power Mazda lamp, series.	31 00	1.00 cent
950 candle power Mazda lamp, multiple.	32 00	1.30 cents
1,000 candle power Mazda lamp, series.	32 00	1.30 cents
1,475 candle power Mazda lamp, multiple.	36 00	1.50 cents
1,500 candle power Mazda lamp, series.	36 00	1.50 cents
3,000 candle power Mazda lamp, series ‡.	50 00	3.00 cents

* This is the single bulb fire alarm lamp.

† This is the two bulb fire alarm lamp.

‡ This is the twin fixture lamp on boulevard posts.

A deduction at the rate of 1 cent per hour for lamps of 100 candle power or less and 5 cents per hour for all other lamps is made for outage.

Pensions paid to veterans (retired)	3,260 59
Pensions paid to laborers (retired)	9,928 75
Compensation allowed injured employees	4,663 72
Vacations allowed laborers, mechanics, etc.	39,971 13
Holidays not including holidays charged to street accounts	95,365 57
Military duty	78 00
Postage	368 71
Printing	3,876 96
Stationery	655 02
Traveling expenses, car fares, etc.	1,163 42
Engineering supplies and incidentals	3,134 79
Stationery	\$706 14
Printing	743 85
Postage	135 38
Transit repairs	62 49
Miscellaneous	1,486 93
Supplies, etc., for laboratory	297 13
Artificial stone sidewalks, new and repairs by department force. (See reconstructing and repairing streets by contract)	32,064 45
Asphalt and bitulithic pavement repairs. Temporary repairs, labor, teaming materials. (See reconstructing and repairing streets by contract)	10,390 86
Brick block repairs, labor, teaming, materials	3,772 40
Wood block repairs, labor, teaming, materials	7,729 08
Crosswalks repaired, not included elsewhere	156 45
<i>Carried forward</i>	<u>\$317,747 64</u>

<i>Brought forward</i>	\$317,747 64
Fence repairs	5,975 79
Plankwalk repairs	1,563 61
Edgestone, sidewalks and gutters (new) not included elsewhere	17,589 19
Rent of land, wharves, etc.	4,951 00
Taxes	352 80
Expense of stables, including drivers, feeders, fodder, horse-shoeing, repairs to harnesses, wagons, carts, etc.	\$125,381 04
Amount earned by department teams	93,197 63
	<hr/>
	32,183 41
Electric lighting at yards and stables	1,563 26
Gas lighting at yards and stables	240 94
Fuel, for heating offices, buildings and stables	3,716 71
Electric appliances, labor and materials, yards and stables	15 38
Rent of towels	178 20
Stoves, pipes, grates, etc.	130 27
Telephone rentals and tolls	2,233 72
Ice	124 38
Signs, making, repairing, putting up, etc.	26,185 24
Tools, hardware, etc., new, cost of repairing, etc.,	29,184 31
Oil for lighting around defects, etc.	1,479 12
Expenses of yards, including salaries of foreman, clerks, yardmen, watchmen, tool wagons, etc.,	67,677 65
Repairs of yard buildings, stables, sheds, shanties, etc.	17,836 63
Sanding icy and slippery streets	13,273 99
Repairing wharf at 521 Commercial street	3,560 23
Chests for Central Office, making of	5 75
Premium on surety bonds	18 00
Traverse street subway	2,107 50
Adding machine	125 00
Repairs to and inspection of typewriters and adding machines	60 00
Repairs to snow dump	180 33
Work done and materials furnished, individuals, corporations, etc.	3,498 40

1 Concrete base removed (square yards).
 2 Concrete base laid (square yards).
 3 Bluestone coated with asphalt (square yards).

4 Cost of grouting.
 5 Cost of gasolene.
 6 Suction.

7 Graveling sidewalks (square yards).
 8 Cost of graveling sidewalks.
 9 Macadam roadway patched (square yards).

ICE FORCE — CHARGED TO APPROPRIATION FOR MAINTENANCE.

¹⁶ Cost of concrete base.
¹⁷ Excavating roadway (square yards).
¹⁸ Cost of drilling and blasting rock.

STREET OPENINGS.

Under classes 1 and 2 of the schedule of permit fees, permits were issued for openings in public ways, as follows:

TO WHOM ISSUED.	Number of Permits.	Length in Feet.
Sewer and Water Service.....	2,880	34,560
Boston Consolidated Gas Company.....	1,616	40,400
Boston Elevated Railway.....	165	24,750
Dedham and Hyde Park Gas and Electric Company.....	75	1,875
Edison Electric Illuminating Company.....	3,756	262,920
Miscellaneous.....	2,796	139,800
New England Telephone and Telegraph Company.....	712	73,400
Emergency permits used and returned.....	892	22,300
	12,892	600,005

Making a total length of openings approximately 113 miles.

Total of all permits issued 19,623.

Permits for other than street openings have been issued as follows:

Cleaning snow from roof	21
Erecting and repairing awnings	377
Erecting and repairing buildings	1,013
Painting and minor repairs on buildings	3,543
Moving building in streets	9
Feeding horses in streets	13
Placing signs flat on buildings	1,059
Raising and lowering safes, etc.	50
Emergency for above	292
Special permits	354
	<u>6,731</u>

The fees from issuing permits amounted to \$25,434.91.

Of this amount \$19,698.51 was deposited with the City Collector and \$5,736.40 was billed to Public Service Corporations.

BONDS.

There are now on file 2,942 surety bonds, in amount of one, three and twenty thousand dollars, covering the city against claims for damages, etc., through the use of permits.

APPENDIX D.

REPORT OF THE DIVISION ENGINEER OF
THE SANITARY DIVISION.

BOSTON, January 1, 1930.

MR. JAMES H. SULLIVAN,
Commissioner of Public Works.

DEAR SIR,—I submit herewith a statement of the activities and expenditures of the Sanitary Division for the year ending December 31, 1929.

The maintenance expenditures of the Sanitary Division follow:

Sanitary Division	\$3,221,814 62
-----------------------------	----------------

SANITARY SERVICE.

The reduction in the number of complaints brought about by the establishment of a follow-up system in the various districts has justified the adoption of this system and the close attention paid to this branch of the service.

The scarcity of the inland dumps offers a very serious problem, cutting down the number of loads on account of the longer haul. Nevertheless, these obstacles have to be met, as the removal of ashes and garbage must go on and the collections kept up on regular schedule, irrespective of weather conditions or problems of long haul.

STREET CLEANING SERVICE.

While the street cleaning forces in the down town portion of the city have been able to keep these streets

clean, a very different problem presents itself in the suburban districts. While the motor-driven pick-up sweeper does very effective work on a certain class of smooth-surface streets, there are other streets that require a much larger force than we have at the present time to keep them clean.

Yours respectfully,

D. J. LYNCH,
Assistant Engineer, Sanitary Division.

SANITARY SERVICE.

FINANCIAL STATEMENT.

Appropriation	\$3,199,828 79

CITY OF BOSTON SANITARY DISTRICTS 1929

APPENDIX E.

REPORT OF THE DIVISION ENGINEER OF THE
SEWER DIVISION.

BOSTON, January 1, 1930.

MR. JAMES H. SULLIVAN,
Commissioner of Public Works.

DEAR SIR,—I submit herewith statement of the activities and expenditures of the Sewer Division for the year ending December 31, 1929.

During the fiscal year 1929 there were built by contractors, day labor and private parties, 20.37 miles of sewers and surface drains throughout the city. There was 0.28 mile of sewers and surface drains rebuilt or abandoned, making a net increase for 1929 of 20.09 miles. This, added to the existing 1,048.80 miles of common sewers and surface drains, together with the 30.93 miles of intercepting sewers, makes a grand total of 1,099.82 miles of common and intercepting sewers belonging to the City of Boston and under the care of the Sewer Division on January 1, 1930.

In addition to the sewers belonging to the City of Boston, there are also state or metropolitan sewers located within the city limits, as follows:

North Metropolitan Sewerage System.—1.653 miles in Deer Island; 5.467 miles in East Boston and 3.292 miles in Charlestown — a total of 10.412 miles of sewers discharging into the harbor at Deer Island.

South Metropolitan Sewerage System.—1.50 miles in the Back Bay; 6.035 miles in Brighton; 2.87 miles in Dorchester; 4.527 miles in Hyde Park; 1.430 miles in Roxbury and 7.643 miles in West Roxbury — a total of 24.005 miles of sewers discharging into the harbor at Nut Island, all of which belong to the state and are under the control of the Metropolitan District Commission. All the city sewers in East Boston and Charles-

town drain into the North Metropolitan System, and all of Brighton and Hyde Park and portions of the Back Bay, Dorchester, Roxbury and West Roxbury drain into the South Metropolitan System.

Five hundred and sixty-seven (567) catch-basins were built or rebuilt and 72 abandoned or removed during the year, making a total of 19,035 catch-basins under the care of the Sewer Division on January 1, 1930, and 8,494 catch-basins and 141 drop inlets were cleaned by contract, the total amount of material removed therefrom being 30,522.58 cubic yards.

Two thousand three hundred and sixty-seven (2,367) permits have been issued as follows: 649 to district foremen and contractors for new construction work, and 1,718 permits were issued to drain layers for laying new house drains or repairing old ones.

Entrance fees amounting to \$8,463.12 have been deposited with the City Collector for collections from the estates upon which no sewer assessment was ever paid, in accordance with the City Ordinances of 1910, chapter 9, section 10.

One thousand seven hundred and sixty-seven (1,767) complaints on flooding and other causes have been investigated, and written reports made thereon, and gasoline and sand traps in 250 garages have been inspected, and notices mailed to owners where defects were found. One thousand one hundred and eighty-one (1,181) hotels and restaurants have been inspected to ascertain the condition of grease traps if found installed.

Plans for the assessment of estates for sewer construction have been furnished to the Board of Street Commissioners, representing 48,276.80 linear feet of sewers and appurtenances, costing \$289,531.41.

Three thousand two hundred and thirty (3,230) municipal liens have been reported to the City Collector, in accordance with chapter 60, section 23, of the General Laws, and in addition there were six thousand five hundred (6,500) reported upon orally upon persons making verbal requests at the Sewer Division office.

Five hundred and six (506) notices have been mailed to abutters in conformity with section 8, chapter 9, of the Ordinances of 1910, notifying them of new sewer construction.

The principal sewerage works built, together with those recommended for the coming year, are as follows:

CITY PROPER.

Changing the harbor lines of the Charles river and the street widenings and extensions in the vicinity of the North Station has resulted in the construction of concrete overflows in Causeway street and Nashua street, and a concrete combined sewer in Lowell street, with the necessary weirs and tide-gate chambers. The 4-foot by 4-foot wood overflow under the North Station and the 2-foot by 3-foot wood overflow from Nashua street at Minot street were abandoned, and the 3-foot 4-inch by 4-foot 3-inch wood overflow at Lowell street was rebuilt.

Sewerage works are recommended in Alleys No. 521, 523, 525 and 541, which are low alleys and should be connected with the South End low level system; in Alley No. 453 and outlet in Alley 448, Cumberland street and Norway street; in Alley No. 456; in Clarendon street, at Stuart street; in Medford street, to replace an old wood sewer and for the further extension of the Nashua street overflow to the new line of the Charles river.

ROXBURY.

A pipe sewer was built in Kilmarnock street to accommodate a large public garage, and a surface drain in Hemenway street in advance of permanent pavement.

Sewerage works are recommended in Kilmarnock street and Van Ness street which have been laid out under chapter "393" of the Acts of 1906; in Alley No. 817; for rebuilding along the line of May Woods brook and the extension of Dorchester brook overflow east of Massachusetts avenue.

SOUTH BOSTON.

On petition of the abutters a sanitary sewer was built in I street, from East Fourth street to Minnie court.

The D street and Damrell street overflow should be extended under the Midland Division tracks and connected with a section already built by the New York, New Haven & Hartford Railroad. Pipe sanitary sewers are recommended in private land in the rear of 508 and 538 East Broadway and in Ward court.

EAST BOSTON.

The 12-foot by 10-foot reinforced concrete overflow for the Porter street district, authorized by the Massachusetts Legislature under chapter 259 of the Acts of 1926 was completed on June 3, 1929. A sewer petitioned for in Milton street; a surface drain in St Andrew road in advance of street construction under chapter "393" of the Acts of 1906, and a surface drain in Gladstone street for the general improvement of the systems were all completed during the year.

Sewerage works are recommended in Gladstone street, Everett street and in Marginal street, between Cottage street and Orleans street and outlet into Commonwealth Dock.

CHARLESTOWN.

The only sewerage works constructed in this district were of a minor nature, required to improve the functioning of the existing system.

A new sanitary sewer should be built in Wallace court and for the general improvement of the system sewerage works are recommended in Chestnut street, Monument square and private land off Alford street.

BRIGHTON.

On petition of the abutters, sanitary sewers were constructed in Chiswick road, Kenrick street, Lyne road and Linden street. For the general improvement of the system, surface drain outlets were built in private land off Foster street, Corey street and Cambridge street. Surface drains in advance of new street construction or repavement were built in Trapelo street, Willoughby street, Leamington road, Brayton road and Bostonia avenue. The separate system of drainage work in advance of chapter "393," street construction or work on petition of the abutters was built in Vinal street, Chestnut terrace, Chiswick terrace, Chiswick Road West, Brock street, Warren street, from Woodstock avenue to Brookline line; Warren street, from Cambridge street to Monastery road, Jordan road, Ryder Hill road and Hano street and private land. A sanitary sewer was reconstructed in Commonwealth avenue, between Linden street and Harvard avenue, and a surface drain was built in Washington street and sewers by

private parties were built in Aladdin court, Montcalm avenue and Eaton street.

To improve the drainage for the new fire station in Chestnut Hill avenue sewerage works are proposed in Foster street, private land, Wiltshire road, Portina road, Hatherly road and Chestnut Hill avenue. Sewerage works in advance of chapter "393," Acts of 1906, street constructions are proposed in Wadsworth street, Hartley terrace, South Crescent circuit, Regal street and Harriet street. The construction work planned for Pratt street and outlet in private land, the easterly branch of Shepard brook and in Dustin and Cambridge streets are important projects for the general drainage improvement for three sections of Brighton.

WEST ROXBURY.

On petition of the abutters sanitary sewers were built in Elmwood street, Washington street, Hodgdon terrace, Dunbar street, Weld street, Bates street, Alpheus road, Weeks avenue, Mansfield street, Washington Heights avenue, Hillside avenue, Leland street, Lennoco road, High View avenue, Rockwood street, Westbourne terrace and the Weld Park outlet in the Arnold Arboretum and West Roxbury Parkway, to drain a large part of West Roxbury and Brookline. Sanitary sewers and surface drains were built in Reyem circle, Forest Hills street, Martin street, Sanborn avenue, Winslow street, Burard street, Pond circle, Welles Park, Centre terrace and private land, Lark street, Robin street and Bogandale road. Surface drains were built in advance of permanent pavement in Cornell street, Morton street, Gardner street and La Grange street, and in advance of street construction under chapter "393" of the Acts of 1906 in Elven road, Manthorne road, Pinedale road, Rustic road, Eastbourne street and outlet in Beech street, Dent street, Pershing road, Roseway street, Manthorne road, Avalon road and outlet in Addington road and Corey street, Vale street, Mendelssohn street, Haydn street, Brahms street, Liszt street, Ashcroft street, Brookley road, Averton road, Cedrus avenue, Hillview avenue, Rodman street, Mosgrove avenue and outlet in Washington street and Leshar street.

Baker street, from the Metropolitan Sewer to Keith

street, Centre street, between the Dedham line and 500 feet south of Linden road. The Dale street outlet to Providence street, Metropolitan avenue, between Dale street and Maynard street; Washington street, between Grove street and Cottage avenue; Canterbury street, from Paine street to existing sewer, and several streets and outlets in both the Weld Park and German-town districts are some of the many streets for which petitions for sewerage works have been received. Weld street, Stratford street, Robin street, Park street, Hemlock street and Schirmer road are recommended for sewerage works in advance of street construction.

DORCHESTER.

A special appropriation for the improvement of the sanitary conditions in Savin Hill Bay was authorized by the Massachusetts Legislature under chapter 239 of the Acts of 1929. Construction work on section one is 45 per cent completed and on section three about 5 per cent completed and the contract for the other two sections are expected to be awarded during the coming year. The widenings of Oakland and Ashland streets under a special act of the Legislature have required sewers and surface drains.

In advance of street construction under chapter "393" of the Acts of 1906, sewers and surface drains have been built in Ashton street, Columbine street, Duke street, Milton avenue extension, Regis road and Sharp street, and outlet and surface drains only in Mt. Bowdoin terrace, Bateswell road, Burgoyne street, Helena road, Wilcox road, Sedalia road, Hazleton street, Codman Hill avenue, Hurlcroft avenue, Mercier avenue, Milton street, and outlet in Hallet-Davis street, Marsh and Hallet streets, Rector road, Donald road, Supple road and Truxton street.

Permanent street pavement work required sewers and surface drains in three portions of Morton street and in Washington street, from Valley road to Mora street, and a surface drain in River street, from Idaho street to Groveland street.

On petition of the abutters, sanitary sewers were built in Kennebec street, Oldfields street, Manor street, Rich street, Rosslerin street, Columbia Park and Southern Artery, between Adams and Branton streets and

surface drains built in Southern Artery and Stone terrace and Oakland brook, Favre street and private land between Bismarck and Favre streets.

Private parties built sewers in Mercier avenue, Violante street and in passageway from Parkman street, and a sewer and surface drains in Oakland place.

A surface drain was built in Hillsboro road and a sewer and surface drain in the passageway from Duke street.

In addition to completing the Savin Hill Bay sewerage works, it is recommended that sewerage works be built in Old Colony terrace, Lauriat street, Rhoades street, Devon street, Strathcona road, Goodale road, River street, between Duxbury road and Mattapan square, Dudley street, between Columbia road and Folsom street, and the extension of Oakland brook in private land to Messinger street.

HYDE PARK.

The permanent pavement construction required a sanitary sewer in River street, at Osceola street, and a surface drain in Greenwood avenue and River street, at Blake street and Agnes avenue. The sanitary sewers in Wood avenue and Thatcher street were built by private parties and the sewer in Radcliffe road was rebuilt by the city. On petition of the abutters, sanitary sewers were constructed in Baldwin street, Clay street, Summer street, Bald Knob road, Rosemont street and private land, and surface drains in Central avenue and River street at Roxanna street. Sewerage works are proposed in this district as follows: In Business street, Barry street and outlet in private land; Water street, Central avenue and Frazer street.

CALF PASTURE PUMPING STATION.

The periodic cleaning of No. 1 and No. 2 pump wells, a new chain link wire fence along the northerly side of the grounds, pointing the stone work in the main building, repairs to boiler combustion chambers and at the west shaft house, new impellers and rings for No. 1 and No. 2 pumps and dredging the channel and shoal were the principal items of work done at the pumping station.

It is recommended to provide four new electric pumps and motors to take the place of No. 3 and No. 4 engines, to place two motor-operated gates on the nine-foot

sewers, to electrify the filth hoist machinery and provide new sludge removal facilities for the deposit sewers.

UNION PARK STREET PUMPING STATION.

A new ventilator was installed and repairs were made to the doors and windows. A new pump for clearing the station in case of flooding and mechanical rakes for the screens are recommended.

FENS GATE HOUSES.

New control mechanism, a new conduit and wiring for gate No. 1, a new pinion for gate No. 3 and repairs to the ventilator and roofs were the principal work done at these gate houses. New gates and frames are required in the by-pass channel.

MOON ISLAND.

New H-beams were placed in the boat chamber and the setting of posts for Causeway fence was completed on the southerly side. It is recommended that the building at the east shaft be removed, the shaft be encased in concrete, rip rap placed and grading be done around it; also that a new concrete floor be placed in the gallery of the long-gate house.

Respectfully submitted,

THOMAS F. BOWES,
Division Engineer.

SEWER DIVISION.

The work of the Sewer Division is carried on under chapters 27 and 39, Revised Ordinances of 1925, and the following statutes:

Chapter 426, 1897, as amended by 450, 1899, and 268, 1903.

Chapter 283, 1903, as amended by 464, 1907.

Chapter 550, 1907.

Chapter 424, 1908.

Chapter 514, 1908.

Chapter 74, Special Acts of 1918.

THE DUTIES OF THE SEWER DIVISION.

1. Preparation of plans for sewerage works.
2. Construction and maintenance of all sewerage works.
3. Investigation of complaints in regard to defective drainage.
4. The granting of permits for sewer construction.
5. The preparation of plans for the assessment of the cost of sewer construction.
6. The examination of the plans of other corporations proposing to construct works in the public streets with reference to their probable interference with sewerage works.

APPENDIX F.

REPORT OF THE DIVISION ENGINEER OF THE
WATER DIVISION.

BOSTON, January 2, 1930.

To the Commissioner of Public Works.

The following report of the operation, income and expenditure of the Water Division for the year ending December 31, 1929, is respectfully submitted.

The greater portion of pipe laying during the year, due to building construction and property development, was in the West Roxbury and Dorchester districts, 3.2 miles being laid in West Roxbury, 1 mile laid in Dorchester, .6 mile laid in Brighton and .5 mile in Hyde Park.

The total length of pipe laid for the extension of the water system was 6 miles and the work was executed under fifteen contracts, awarded at various times during the year.

The longest single work was the installation of 5,600 linear feet of 12-inch pipe in Hackensack road in West Roxbury and Brookline, providing a second supply to the Faulkner Hospital, Arboretum Heights and the Moss Hill areas previously dependent on a single pipe through Centre street.

During the year 10,617 linear feet or 2 miles of 4-inch and 6-inch water pipe laid fifty years or more, was relaid with 8-inch and 12-inch pipe, improving the fire protection in the more densely populated sections of the city, thereby furnishing the quantity of water sufficient for the modern type of engines operated by the Boston Fire Department.

Some of the longer lengths were:

CITY PROPER.

Waltham street, between Harrison avenue and Albany street, 447 linear feet of 6-inch relaid with 10-inch pipe.

ROXBURY.

Lamont street, between Linden Park and Vernon streets, 540 linear feet of 4-inch and 6-inch relaid with 8-inch pipe.

Kearsarge avenue, between Warren and Winthrop streets, 632 linear feet of 4-inch and 6-inch relaid with 8-inch pipe.

DORCHESTER.

Marsh street, between Belton and Fraser streets, 363 linear feet of 8-inch relaid with 12-inch pipe.

Mt. Bowdoin terrace, between Eldon street and Mallon road, 898 linear feet 6-inch relaid with 8-inch pipe.

Oakton avenue, between Plain and Adonis streets, 1,234 linear feet 6-inch relaid with 12-inch pipe.

WEST ROXBURY.

Avalon road, off Weld street, 375 linear feet of 6-inch relaid with 8-inch pipe.

Allendale street, between Elwell road and Brookline line, 670 linear feet of 6-inch relaid with 12-inch pipe.

Pinedale road, between Canterbury and Grew streets, 628 linear feet of 6-inch relaid with 8-inch pipe.

HYDE PARK.

Wood avenue, between Thatcher and River streets, 1,252 linear feet of 4-inch and 6-inch relaid with 12-inch pipe.

Metropolitan avenue, off Hyde Park avenue, 400 linear feet of 6-inch relaid with 12-inch pipe.

During the year practically every old style Lowry hydrant in South Boston was abandoned and replaced with modern Post hydrants, thus obviating the salting of the hydrants and also making the hydrants easily accessible. The number of hydrants installed was seventy.

Service pipes to the number of 1,576 and varying in size from $\frac{5}{8}$ -inch to 6-inch were installed; of this number ninety were 4-inch pipes to furnish sprinkler protection. In 1928 services to the number of 2,463 were installed, a decided slackening in the building construction in 1929.

The regular work of the Distribution Branch, consisting of repairing leaks, establishing fire and service

pipes, freeing stoppages in the older service pipes, shutting off and letting on water, etc., was performed in such manner and at such times as to provide a minimum of delay and discomfort to water applicants, water takers and the general public. Practically all of the work in the business district is now done on Sundays to care for the above conditions.

In compliance with the Legislative Acts of 1907, 574 meters were set on old services in existence previous to 1907, and 2,021 meters were set on new service pipes, a total of 2,595 meters set during the year. At the end of the year all live service pipes had been metered and the total number of meters in the system is 98,815. With Boston entirely metered the work of the Meter Branch is increasing and in addition to the installation of meters on new and old services, 8,917 meters were changed and reset, and 2,067 meters were repaired in service.

The collections for all purposes in the Water Division were \$4,625,544.28.

Very respectfully,

C. J. CARVEN,
Division Engineer.

Service taps added, 1,576.

Total service taps now in use as per metered services, 98,890.

APPENDIX G.

REPORT OF THE BOSTON AND CAMBRIDGE
BRIDGE COMMISSION.

BOSTON, January 1, 1930.

To the Honorable the Mayor:

SIR,—As Commissioner for the City of Boston, I respectfully submit herewith the annual report of the Boston and Cambridge Bridge Commission for the year ending December 31, 1929.

The commission is composed of two members, one appointed by the Mayor of the City of Boston and the other by the mayor of the city of Cambridge, under provisions of chapter 467, Acts of 1898.

The commission has charge of the maintenance of the following-named bridges between Boston and Cambridge, Anderson, Cottage Farm, Longfellow, Prison Point, River Street and Western Avenue to Cambridge.

As there is no separate appropriation made for the City of Boston's portion of the expenses of this commission, the same is taken from the appropriation for the Bridge and Ferry Division, Bridge Service. The amount expended during the fiscal year ending December 31, 1929, was \$14,893.33.

ANDERSON BRIDGE (OVER CHARLES RIVER, BETWEEN
BOSTON AND CAMBRIDGE).

Under contract with Walsh & Co. for repaving the surface of this bridge, which work was completed November 17, 1928, payments were made this year amounting altogether to \$2,781.50. Advertising amounted to \$17.53, which was paid last year. The total cost of the work amounted to \$2,799.03.

COTTAGE FARM BRIDGE.

Special Assessment on Account of Construction of Brookline Street, Essex Street, Cottage Farm Bridge.

IN ACCORDANCE WITH CHAPTER 497, ACTS OF 1921.

Winthrop.....	.52	8,532 17
Woburn.....	.44	7,219 53
Totals.....	100.00	\$1,640,802 80

NOTE.—Chapter 416 of the Acts of 1924 provided for the payment by the Boston & Albany Railroad of \$125,000 toward the cost of construction of this bridge.

LONGFELLOW BRIDGE.

On the Longfellow Bridge the street lighting is giving considerable trouble as the lamp posts are being continually knocked down by autos and the wiring is in deplorable shape owing to corroded condition of the conduits. A contract should be let as soon as possible for alteration of this wiring, preferably changing the location of the street lights.

PRISON POINT BRIDGE.

A contract for repairing the steel work and rebuilding the floor of the draw span of this bridge was approved September 12, 1929, between the commission and the New England Construction and Maintenance Company. The draw span of this bridge is now fixed in place. It is paved with $3\frac{1}{2}$ -inch granite paving block laid with asphaltic joints. The work is being done under the supervision of the Bridge and Ferry Division, Public Works Department. It is expected that the work will be completed early in 1930. The amount expended under this contract to date is \$4,080.85.

RIVER STREET BRIDGE.

Apportionment of the cost of construction of this bridge was made in accordance with chapter 497 of the Acts of 1921; chapter 327 of the Acts of 1926 and chapter 320 of the Acts of 1927. The percentages paid are as follows:

City of Boston	37.838 per cent
City of Cambridge	37.838 per cent
County of Middlesex	8.108 per cent
Metropolitan Parks District	16.216 per cent
	<hr/>
	<u>100.00</u> per cent

WESTERN AVENUE BRIDGE (TO CAMBRIDGE).

Apportionment of the cost of construction of this bridge was made in accordance with chapter 497 of the Acts of 1921. The percentages paid are as follows:

City of Boston	35.00 per cent
City of Cambridge	35.00 per cent
County of Middlesex	7.50 per cent

Boston Elevated Railway Company . . .	7.50 per cent
Metropolitan District Commission . . .	15.00 per cent
	<hr/>
	100.00 per cent

BRIDGES, REPAIRS, ETC.

ANDERSON BRIDGE (OVER CHARLES RIVER).

A contract was awarded to Walsh & Co., approved October 19, 1928, for repairing roadway of Anderson Bridge, over the Charles river. The following amount was expended under this contract during 1929:

Walsh & Co.	<u>\$2,781 50</u>
---------------------	-------------------

PRISON POINT BRIDGE.

A contract was awarded to the New England Construction and Maintenance Company, approved September 12, 1929, for repairing the steel work and rebuilding the floor of the draw span of this bridge. The following amounts were expended under this contract during 1929:

New England Construction and Maintenance Company . . .	\$3,620 14
Inspection	396 99
Inspection of material . . .	58 72
Advertising	5 00
	<hr/>
	<u>\$4,080 85</u>

Respectfully submitted,

JAMES H. SULLIVAN,
Commissioner for the City of Boston.
